

Customer Escalation Process

NWN has the processes and infrastructure in place to support the State of California's needs. NWN will utilize the same enterprise processes for all offerings under the CALNET DNCS contract. Customers requiring case escalation should use the information below to escalate support.

Customer Request for Escalating Service Request Issues

1. Contact the NWN Command Center by either calling 855-548-2200 or access NWN Case Management Portal.
2. Once the end-user contacts the NWN Command Center, NWN CALNET Engineers will work to address case specific issue with the customer, and will escalate the issue to the next level support as appropriate if necessary.

In the event of a critical outage, an Escalation should be requested.
